

Art Y10 Summer HT1: Learning Journey

What are we learning about?

Using the theme of 'Natural Forms,' in this unit of work we are going to investigate how other artists/craftspeople have interpreted this theme and what it represents to us.(AO1/3) We are going to look at photographic techniques and practice, learn and develop our recording techniques in a broad range of media.(AO2/3)

Why are we learning about it?

It is important as developing artists, that we learn how to control and use a range of techniques in a variety of media so that in the professional world, we will be able to apply these skills to a career in the Arts. We are researching and learning from other artist's/craftspeople, to help inspire and influence our creative process and our own personal outcomes. (AO1/3/4)

What new KNOWLEDGE will I gain?

We will be looking at using macro settings within our own photography (AO2/3)and studying the work of range of photographers such as Edward Weston/ Ralph Gabriner/ William Neill to understand their use of form and composition & choice of subjects. (AO1)

We will be expanding our knowledge of 2D recording by experimenting with a variety of drawing and painting media, through a series of observational tasks from primary and our own secondary sources.(Photos) (AO2/3)

TOPIC: NATURAL FORMS

How does this build on the SKILLS I already have?

You will be encouraged and directed to refine your skills and work at a technically more proficient level than when you have used the various different media's before.

Through more regular classroom practice and knowledge of the various medias, you should be able to produce more thoughtful and accomplished outcomes.

What new SKILLS will I develop?

We will have the opportunity to learn and develop new skills & techniques in photography, acrylic, water colour, ink, pen, pencil, oil & soft pastel .

You will develop skills in reflection and refinement, which is necessary for improving your work.(AO2/3)

How does this build on the KNOWLEDGE I already have?

We have some photography knowledge from still life sweet photo's in yr9 , but we are now looking at more complex compositional ideas and specific settings/ techniques within our images. (AO3)

We will build on our knowledge of materials and techniques through media exploration and developing more control over media techniques. (AO2)
