

TOPIC:RO18 LO2 – Understand Antenatal Care and Preparation for Birth.

What are we learning about?  
We are learning about the routine, screening and diagnostic tests available during pregnancy and who does them. We are also learning about the options that a woman has for labour and birth.

Why are we learning about it?  
This topic will be examined in the final exam. In a vocational context, this is the foundation for a health career in paediatrics.

What new **KNOWLEDGE** will I gain?  
You will learn how and why each of the tests is carried out. You will learn about the methods of pain relief and assistance available to women during labour and birth.

How does this build on the **SKILLS** I already have?  
In LO1 you learned how to evaluate, we will build on this, to then rank and justify our decisions. You learned how to summarise from small amount of text, we will build on this, to prepare for the coursework.

What new **SKILLS** will I develop?  
You will learn how to evaluate and make judgments about which methods are most suitable for individual cases studies. You will learn to summarise information from large chunks of text.

How does this build on the **KNOWLEDGE** I already have?  
This will build on the knowledge gained in LO1, of the development of the foetus and the effect of lifestyle choices during pregnancy.
