C3 Exam Preparation

What are we learning about?
We are learning how to deconstruct case studies and construct effective exam responses

Why are we learning about it?
The external exam makes up 40% of your grade and consolidates all the learning from the first 2 assignments.

What new KNOWLEDGE will I gain?
You will learn how to apply the theory that you have learned about physiological data and how to construct a support plan for an individual.

How does this build on the SKILLS I already have?
This builds on the skills of using the grading criteria to ensure all aspects of the question are answered and the draft shows this.

What new SKILLS will I develop?
We will learn how to deconstruct a case study, pulling out relevant information and using this to plan concise and effective answers.

How does this build on the KNOWLEDGE I already have?
This builds upon the knowledge from C2 where we looked at barriers to accessing support services and the support that was available.
