

Art Y10 Spring HT2: Learning Journey

What are we learning about?

Using prior planning and investigation to produce a personal response to the theme of 'Identity'. You will learn about adapting your ideas and plans as you create your final outcome/s.

Why are we learning about it?

It is important as developing artists, that we learn how to be flexible and adapt our intentions if required, in the pursuit of better outcomes.

It is important to realise that during many creative processes, unexpected challenges often arise and that they can lead to very positive changes in our work very often and are not always to be viewed as something negative.

What new KNOWLEDGE will I gain?

You will individually gain different personal 'problem solving' knowledge depending on your chosen methods of producing your outcomes.

TOPIC: IDENTITY

How does this build on the SKILLS I already have?

You will be encouraged and directed to refine your skills and work at a technically more proficient level than when you have used the various different media's before.

Through more regular classroom practice and knowledge of the various medias, you should be able to produce more thoughtful and accomplished outcomes.(AO4)

What new SKILLS will I develop?

- Continue to develop skills in reflection and problem solving.
- You will automatically continue to develop the process of testing /evaluating media and techniques right up until you have refined and completed your final outcome/s.

How does this build on the KNOWLEDGE I already have?

You have been taught various problem solving skills relating to media/ techniques and resilience throughout your KS3 projects. You will have to use a combination of this knowledge now to successfully complete & refine your final outcome/s.
