

TOPIC: RO19 LO1 Understand the key factors when choosing equipment for babies from birth to 12 months.

What are we learning about?

We will learn about the different travel, clothing & footwear, sleeping and feeding equipment needed for a nursery, for babies from 0-12 months.  
We will look at 3 chosen factors and select the most suitable equipment for the nursery.

Why are we learning about it?

It is important that we can consider the needs of children and can link it to their developmental stage, this will help us if we move into a career working with children.

What new **KNOWLEDGE** will I gain?

We will learn about the safety, cost, practicality, design, durability, age appropriateness and ease of cleaning of a variety of different pieces of nursery equipment.

How does this build on the **SKILLS** I already have?

We will build our evaluating skills that we used in RO19 LO4. we will also build our self and peer assessment skills, as we become more familiar with the marking criteria.

What new **SKILLS** will I develop?

We will develop research skills, picking out the most appropriate information, we will also rank and justify our chosen equipment. We will ensure that the vocational link to nursery is evident.

How does this build on the **KNOWLEDGE** I already have?

We will build on the knowledge of areas of development and the needs of a child. We will extend and apply our knowledge of feeding from 0-6 months and 6-12 months.
