

# Music Autumn Term Year 10: Learning Journey

## What are we learning about?

As part of the Integrated Portfolio you will be learning to perform individually on your chosen instrument, voice or technology with technical control, expression and interpretation. You will be practising a variety of pieces to develop your skills and understanding of performance.

## Why are we learning about it?

The Integrated Portfolio is designed to enable you to develop an understanding of performance through exploration of your own instrument and styles and genres of your choice. This term will prepare you for your individual performance assessment.

## What new KNOWLEDGE will I gain?

The individual performance will be assessed on technical control, fluency, expression and interpretation. You will learn about scales, expression markings for phrasing and dynamics, and interpreting the style and mood of the music.

## TOPIC: Integrated Portfolio - Individual Performance

## How does this build on the SKILLS I already have?

The integrated portfolio will further develop your skills on your chosen instrument/voice/technology by playing a variety of pieces. It will further build on your ability to perform with accuracy and fluency.

## What new SKILLS will I develop?

The integrated portfolio will develop your skill of performing confidently and stylishly, choosing a piece that corresponds to your own ability and practicing effectively.

## How does this build on the KNOWLEDGE I already have?

This builds on your knowledge and understanding of the musical elements by using them to communicate musical ideas with technical control and expression.
