

Music Spring Term Year 10: Learning Journey

What are we learning about?

As part of the Practical Component you will be learning to perform in an ensemble on your chosen instrument. You will be practising a variety of pieces to develop your ensemble skills.

Why are we learning about it?

The Practical Component is designed to further develop your understanding of performance. This term will prepare you for your group performance assessment.

What new KNOWLEDGE will I gain?

You will learn about ensemble awareness by understanding how to interact with other musicians/parts and how to show confidence and style with awareness of others when performing as an ensemble.

TOPIC: Practical Component - Ensemble Performance

How does this build on the SKILLS I already have?

The practical component will further develop your skills on your chosen instrument by playing as an ensemble. It will further build on your ability to perform with accuracy, fluency and technical control when performing with other musicians/parts.

What new SKILLS will I develop?

The Ensemble Performance assessment will be focused on the demands of performing in an ensemble. You will develop ensemble skills by learning to show awareness of other musicians/parts when performing as an ensemble. Including the use of eye contact, balance and timing.

How does this build on the KNOWLEDGE I already have?

This builds on your knowledge and understanding of performing musically and with appropriate expression and interpretation. You will learn how to apply this knowledge and understanding when playing with other performers.
