

LO3: Be able to plan different play activities for a chosen developmental area with a child from birth to five years

What are we learning about?  
How to observe a child's development and plan suitable play activities for an area of development.

Why are we learning about it?  
Play is essential to children's development. EYFS practitioners use play as a tool for assessment and learning. This piece of coursework will prepare you for working in a vocational setting with children.

What new **KNOWLEDGE** will I gain?  
You will learn about observation and recording techniques. You will learn how to effectively plan a play activity.

How does this build on the **SKILLS** I already have?  
This will build on your understanding of play and your skill of linking a play activity to an age or area of development. You will use your observation and recording skills, to plan an in-depth and appropriate play activity for a child.

What new **SKILLS** will I develop?  
You will develop observation and recording skills. You will have the opportunity to observe a child playing and plan an activity, using set criteria.

How does this build on the **KNOWLEDGE** I already have?  
This piece of coursework ties together the knowledge that was gained in LO1 and 2, on milestones and play. It allows you to apply and demonstrate your understanding to a vocational setting.
