

RO18 LO3 - Understand postnatal checks, postnatal provision and conditions for development

What are we learning about?

We are learning about the checks that health professionals carry out on the mother and baby after birth. We will also learn about behaviour and the different areas of development.

Why are we learning about it?

This unit will be assessed during the external exam. In a vocational aspect, this is essential knowledge for careers such as health visitors and midwives.

What new **KNOWLEDGE** will I gain?

You will learn about each of the tests done at the 6 week checks and why they are done. You will learn more about the role of the health visitor and GP in maintaining the health of the child.

How does this build on the **SKILLS** I already have?

This builds on the skills we have developed for answering shorter questions, using command word keyrings and highlighting.

What new **SKILLS** will I develop?

You will learn how to use a variety of methods to plan and draft your longer answer questions, to enable you to gain higher levels.

How does this build on the **KNOWLEDGE** I already have?

This builds upon the work of health care professionals that we learned about in LO2, you will learn more specifically about the roles of the Midwife and Health Visitor.
