

## HT4 TOPIC: Y9 Industry (Tertiary Focus)

### What are we learning about?

Is this half term, we will be investigating what a tourist is and what impacts tourism can have in different areas of the world (focusing in on the UK and Kenya). We will also look at sustainable tourism and how resorts can adapt to be more sustainable.

### Why are we learning about it?

In the modern day, tourism is a key part of many country's economies but it is important to understand the impact we can have on the areas we visit so we can make more informed choices in the future. This topic links to development topics in Y8 and KS4.

### What new KNOWLEDGE will I gain?

You will learn about what sustainable tourism is and features that make tourism more sustainable. You will learn about UK national parks and the impact tourists can have on those as well as looking t how tourism in the UK is changing.

### How does this build on the SKILLS I already have?

You already have skills in writing extended pieces using connectives to develop your points. You will be working on this skill but applying it to tourism in the UK and Kenya when learning about the impacts of tourism.

### What new SKILLS will I develop?

You will be designing your own sustainable resort which is one of the first big design tasks you will have. You will be using skills in critical thinking and assessment when thinking about what features to use and why.

### How does this build on the KNOWLEDGE I already have?

We will build on knowledge of sustainability. We will build on knowledge of development and think about how tourism impacts a country's development, looking specifically at Kenya.
