

# French: Year 11 Spring term 2 Learning Journey

## What are we learning about?

This half term, we will be revising and relearning key vocabulary and exam skills, in preparation for our final mock exams, and the final GCSE exams in June.

## Why are we learning about it?

This is our last full half term before the final exams begin! It is a great opportunity to identify where our weaknesses are, and make sure we improve on them before hitting the exams.

## What new KNOWLEDGE will I gain?

*Technically*, you will not be gaining any new knowledge, but the work we do this half term will certainly give you opportunity to refresh your memory on some key topics and vocabulary.

# TOPIC: Revision and exam skills

## How does this build on the SKILLS I already have?

The work we do this half term gives you an opportunity to refresh your memory of how to tackle key questions in the exams.

## What new SKILLS will I develop?

Again, *technically* you will not be learning any new skills, but we will work to ensure that you remember how to tackle key question types in your exams, and have the skills to succeed in your speaking and writing exams.

## How does this build on the KNOWLEDGE I already have?

The material we will revise this half term is all content that you have already learned – this is an opportunity to refresh and revive that knowledge!
