

# RAS: Year 10 Spring Learning Journey 1: What's life like in Modern Britain?

## What are we learning about?

We are going to learn about what the 2021 census can tell us about the situation in Britain. We'll then consider contemporary issues such as Islamophobia and the cost of living, before considering how political parties can have an impact.

## Why are we learning about it?

We need to know what the current issues are in Britain so that we as a school and a community can take action. We also need to be aware of them for the future. Our views on these will influence which political party we vote for.

## What new KNOWLEDGE will I gain?

- Census;
- Contemporary Issues;
- Impact of party politics

Careers

## How does this build on the SKILLS I already have?

You have worked on your ability to express your opinions across many subjects and in the Autumn Term.

We'll also use your understanding of Resilience developed over the Autumn Term.

## What new SKILLS will I develop?

We will have a focus on seeing how Success traits, particularly reading critically and speaking confidently about our opinions.

We will also continue to demonstrate enquiring minds through aiming high to learn about British Politics!

## How does this build on the KNOWLEDGE I already have?

This builds on your knowledge of issues in Britain like racism, which you've seen in form time and also in Key Stage Three lessons like History.

It also builds on Y9 & Y10 RAS looking at the Government.
