

RAS: Year 10 Spring Learning Journey 3: Israel-Palestine and Northern Ireland

What are we learning about?

We are learning about two religious, geo-political issues which affect the world today: the Israel-Palestine Conflict and the Troubles in Northern Ireland. We'll look at the overviews of these events within their historical setting.

Why are we learning about it?

We have a statutory obligation to continue your RS education until you leave school, even if you haven't chosen RS as an option. We've chosen these topics as they link to your Y7-9 learning but also will help you understand the world today.

What new KNOWLEDGE will I gain?

- Israel-Palestine overview
- Life in the Gaza Strip
- Northern Ireland overview
- Life in Northern Ireland
- Are these religious issues?

Careers

How does this build on the SKILLS I already have?

We developed Enquiring Minds when looking at British politics earlier in the term.

We also saw Determination and Resilience in our unit on good mental health.

What new SKILLS will I develop?

We will have a focus on seeing how Aspiration traits – particularly Enquiring Minds – are important when studying complex issues.

We'll apply our understanding of Determination from Resilience to these case studies, too.

How does this build on the KNOWLEDGE I already have?

This builds on your knowledge of RS from Key Stage Three. You'll need to use anything you've learnt about Christianity. You'll also need to know about the beliefs of Muslims and Jews to see why their views are so different.
