

RAS: Year 10 Summer Learning Journey 2: Governments around the world

What are we learning about?

We are learning about different governments around the world, both dictatorships and democracies.

We will start by looking at dictatorships as a concept, then zoom in on Cuba, the Arab Spring and the USA.

Why are we learning about it?

We have learnt about British democracy and how we elect our government. However it is important to recognise what governments look like around the world, to help us recognise how important it is that we have a democracy in Britain.

What new KNOWLEDGE will I gain?

- Dictatorships;
- Cuba;
- Arab Spring;
- USA

Careers

How does this build on the SKILLS I already have?

You have worked on your ability to express your opinions across many subjects and earlier in RAS this year.

We will build on your awareness of what Resilience, Aspiration and Success mean by considering the traits with specific case studies.

What new SKILLS will I develop?

We will have a focus on seeing how Resilience traits (including Respect Help from Others) can be incredibly important in helping someone to overcome barriers.

We will also continue our application of RAS traits to understanding how people act in dictatorships.

How does this build on the KNOWLEDGE I already have?

This builds on your knowledge of democracy vs dictatorship from Year 9 History, where you looked at the Cold War.

It also builds on your knowledge of British Parliament by comparing it to other countries.
