

RAS: Year 11 Autumn Learning Journey 1: Revision & independent budgeting

What are we learning about?

We are reviewing our learning in Year 10 RAS, before embarking on a review of effective revision strategies.

We will then learn about features of budgeting which impact all adults, including credit and debit.

Why are we learning about it?

It is important to recap revision strategies ahead of preparing for mock examinations.

Some of you may have part time jobs so can apply this learning now; otherwise it is important to know how to budget before you need to!

What new KNOWLEDGE will I gain?

- Recap of British Values
- Positive mental health strategies
- Effective revision
- Independent Living
- Credit and Debit
- Budgeting
- Tax and payslips

Careers

How does this build on the SKILLS I already have?

You worked on aiming high in KAPs and your awareness of the world in Year 10 RAS. This will take this same concept and apply it to another field, namely budgeting.

What new SKILLS will I develop?

We will develop our ability to recognise Resilience, Aspiration and Success traits in each other. This will be both verbally and in writing.

We will also focus on aiming high and understanding the importance of budgeting in the bigger picture.

How does this build on the KNOWLEDGE I already have?

This builds on your awareness of the school's curriculum aims of Resilience, Aspiration and Success.

It will build on your general awareness of money and finances from maths.
