

RAS: Year 11 Spring Learning Journey 2: Modern Britain & Financial Security

What are we learning about?

We're going to learn what the Government does, and what our role is in the democratic process. We are then completing our study of different financial features to be aware of, zooming in on pensions and the dangers of online gambling.

Why are we learning about it?

You can't vote meaningfully without understanding what you're voting for, and what your part is within this.

You need to have an awareness of why it is important to save for retirement and later adult life.

What new KNOWLEDGE will I gain?

- Government;
- Role of the citizen;
- Legal system;
- Insurance;
- Pensions;
- Financial products;
- Online gambling;

Keeping Safe

Core RS

Careers

How does this build on the SKILLS I already have?

We will articulate our viewpoints on topics such as racism and poverty, therefore we will see the continued importance of evidence.

This term will see further opportunities for you to articulate your views on case studies.

What new SKILLS will I develop?

We will develop our ability to recognise Resilience, Aspiration and Success traits in each other. This will be both verbally and in writing.

We will consider enquiring minds considerably across the term, to show the importance of questioning anything that's presented as fact.

How does this build on the KNOWLEDGE I already have?

This builds on your learning of financial topics in the Autumn Term, such as credit and debit.

It will also build on your awareness of Modern Britain's issues with things such as racism.
